About the Workshop

The Southern Journal of Philosophy Workshop aims to bring cutting-edge thinking to both classical and contemporary topics, with an eye toward encouraging bold new directions in philosophical thought.

This annual event is held in conjunction with the UofM and Wiley Publishing. Each year, the main proceedings are published in the final issue of the corresponding volume of the journal.

This year's speakers will honor Hortense J. Spillers ('64), whose scholarship has singularly advanced the fields of American literary criticism, cultural studies, black feminism and philosophies of race.
