

A photograph of two students in a laboratory setting. On the left, a male student with short dark hair is wearing green safety goggles and a grey jacket over a purple shirt. He is looking down at a piece of equipment. On the right, a female student with long brown hair is also wearing safety goggles and looking towards the same equipment. The background shows other lab equipment and a blurred figure of another person.

MULTIDISCIPLINARY PHYSICS RESEARCH POSITIONS

Summer 2021

AREAS OF RESEARCH

Students can choose from a variety of research projects from four main themes:

Theme 1: Nanomaterials for Energy Applications

Theme 2: Biophysics

Theme 3: Photonics/Plasmonics

Theme 4: Computational Physics

PROGRAM DETAILS

- 10-week research-intensive summer program
- For undergraduate STEM students
- Period: June 7- Aug. 13
- \$5,000 stipend
- On-campus housing
- Round-trip travel allowance to Memphis
- Operation mode: In-person, but subject to change due to local and national public health recommendations

Applicants should be U.S. citizens or permanent residents

APPLICATION DEADLINE: FEB. 28

APPLY NOW AT: memphis.edu/physics-reu

Women, minorities and first-generation students are encouraged to apply.

Results will be announced by end of March.
