

ATTENTION K-12 STUDENTS & TEACHERS JOIN US FOR LIVE Q&A WITH DEBRA LUDBAN

DEBRA LUDBAN

DEPUTY MANAGER FOR VEHICLE SYSTEMS INTEGRATION

The Gateway, a platform that will establish sustained human presence on and around the Moon!

Debra Ludban has been working for NASA since 2000, where she started as a Quality Engineer at the White Sands Test Facility, supporting Space Shuttle hardware processing and testing. After moving to Johnson Space Center in 2003, she has integrated across multiple deep space exploration programs. In 2017, Deb was asked to support the early Lunar Gateway formulation, and is currently the Deputy Manager for Vehicle Systems Integration, working to ensure the Gateway accomplishes its mission for science and exploration around the moon.
