General Information

Purpose

This documentation highlights how to create targeted announcements in the 5.2.2 version of myMemphis portal. The **Targeted Announcement** module allows administrators to send announcements to specific groups of users within the system. These announcement can be displayed in the users' announcement channel on their homepages, sent via e-mail, or both.

Audience

This documentation is designed for University staff (Target Announcement Administrators) who will be creating **Targeted Announcements** in the myMemphis Portal.

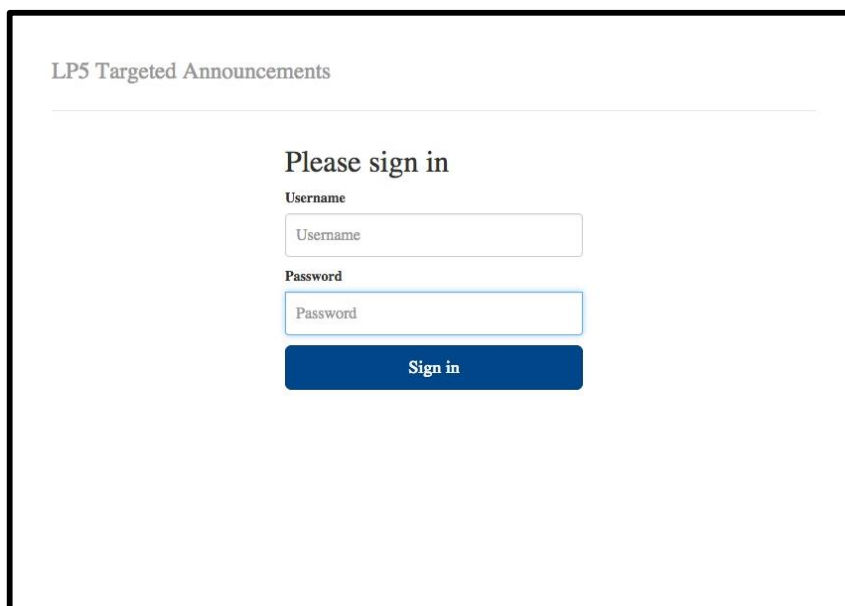

Creating Targeted Announcements in the Portal

The Luminis **Targeted Announcement** functionality is used to get information to employees, faculty, and students. Many University services are accessed through the myMemphis Portal. Therefore, it is a logical place to display relevant information.

ITS has created an application to enhance the delivered myMemphis Portal announcement capabilities:

Browse to: <https://umwa.memphis.edu/lp5ta>

Use your University of Memphis Universal User Identification (UUID) and password. The UUID and password required to enter the Luminus Targeted Announcement for service are the same as those used to login to your University e-mail and other University computer resources.

A screenshot of a web application titled "LP5 Targeted Announcements". The page has a light gray background. At the top, the title "LP5 Targeted Announcements" is displayed in a small, dark font. Below the title, there is a horizontal line. Centered on the page is a sign-in form. The form starts with the text "Please sign in" in a bold, dark font. Below this text are two input fields. The first field is labeled "Username" in a small, dark font, and the second field is labeled "Password" in a small, dark font. Both fields have a light gray border and a placeholder text that matches the label. Below the password field is a blue button with the text "Sign in" in white, bold font.

There are 4 permission levels/types of messaging for Target Announcement Administrators:

- Targeted Announcement Only
- Email Only
- Both Targeted Announcement w/Email
- Campus Announcement (No Email)

Creating Targeted Announcements in the Portal (v5.2.2)

To request targeted announcement roles for your account, enter a help desk ticket <http://umhelpdesk.memphis.edu/> Each role can be assigned via LDAP group and/or individual. Roles can be combined for full/partial functionality.

- Targeted Announcement Only: Allows user to schedule myMemphis Portal Targeted Announcements
- Email Only: Allows user to schedule emails
- Targeted Announcement w/Email: Allows user to schedule myMemphis Portal Campus Announcements and allows user to schedule emails.
- Campus Announcement (No Email): Includes all the above functionality. In addition, Targeted Announcement Administrator can see other user's messages (not just your own).

Dashboard

Once logged in, the user will be taken to their dashboard. The dashboard will display existing messages and if you are a Targeted Announcement Administrator, other user's messages.

Creating Targeted Announcements in the Portal (v5.2.2)

Recipients

When choosing recipients have two options:

1. You can send to individuals by entering their UUID or Banner Number. Each

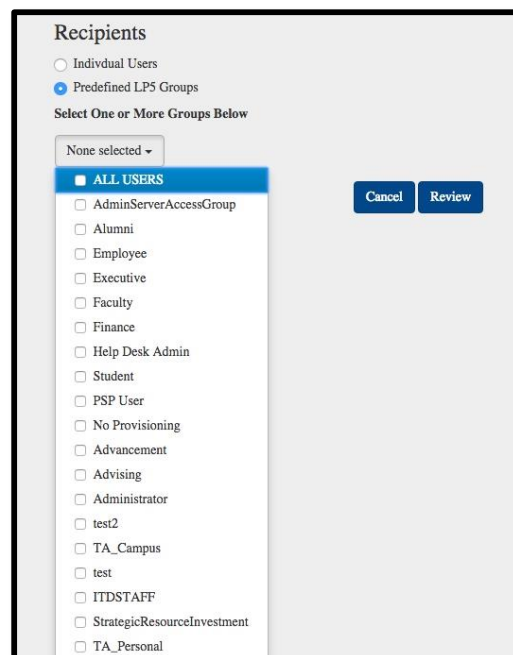

Recipients

☒ Individual Users
☐ Predefined LP5 Groups

Enter list of UUIDs or Banner IDs - List should be comma delimited

entry must be separated by comma delimitation.

2. Or, you can select a pre-defined myMemphis Portal group. The message will only be visible to members of this group when they log into the myMemphis Portal.

Recipients

☐ Individual Users
☒ Predefined LP5 Groups

Select One or More Groups Below

None selected ▾

- ☒ ALL USERS
- ☐ AdminServerAccessGroup

- ☐ test
- ☐ ITDSTAFF
- ☐ StrategicResourceInvestment
- ☐ TA_Personal

Creating Targeted Announcements in the Portal (v5.2.2)

Depending on which Message you choose, you will need to provide different information. Each type of Announcement will require the following information.

Targeted Announcement Only

- Subject
- Message
- Announcement Start Date
- Announcement Expiration Date
- Recipients - list or predefined group.

Email Only

- Subject
- Message
- Email Send Date
- Recipients - list only

Both Targeted Announcement AND Email

- Subject
- Message
- Announcement Start Date/Email Send Date
- Announcement Expiration Date
- Recipients - list only

Campus Announcement (No Email)

- Subject
- Message
- Announcement Start Date
- Announcement Expiration Date

The system will validate usernames/Banner IDs entered. Once processed, you will receive an email confirmation. If any of the recipients are invalid, the email will let you know which ones were invalid (and removed from the announcement). If all the recipients are invalid, the entire targeted announcement is voided.

Creating Targeted Announcements in the Portal (v5.2.2)

Managing Messages

Each message will show up on the dashboard and can be sorted or filtered. Each message can be in one of three statuses. The options available for each message depend on its status.
