RESEARCH SUMMARY

My research aims to improve the health of Black Southerners, reduce racial disparities and stigma as well as address social determinants in HIV prevention, testing, and care in the Deep South (subset of 9 states including Memphis, Tennessee driving the HIV epidemic). In pursuit of these aims, community-based participatory research (CBPR) approaches are central to my research. CBPR requires the sustained involvement of the community in all phases of the research process.

TEACHING NARRATIVE

My teaching philosophy is best characterized by my commitment to inclusiveness, accountability, and respect for diversity. I use current events to connect students with coursework, share examples from my research to apply concepts from the course, and accommodate diverse learning styles by using visual lectures, small and large group exercises, interactive discussions, and community-based group projects. My prior teaching experiences and research training have provided me with the necessary skills to teach

courses at the Graduate level. I am the sole instructor for Behavioral Intervention Development and Health Program Evaluation. Both of these courses have allowed me to strengthen my capacity to integrate community-based participatory research (CBPR) approaches into my teaching portfolio.

SUMMARY OF SERVICE ACTIVITIES

I was an Associate Editor for 5 years of the premier journal founded to move community-based participatory approaches to research forward: *Progress in Community Health Partnerships*. I serve as an ad hoc reviewer for multiple social and behavioral science journals including *American Journal of Public Health* and *Social Science and Medicine*. I also served as an ad hoc conference abstract reviewer for the 1) Ethnic Minority Multicultural Health Track for the Annual Meeting of the Society of Behavioral Medicine; and 2) the Special Interest Group on HIV/AIDS and Community-Based Public Health Caucus for the Annual American Public Health Association Meeting. I co-chaired the Society of Behavioral Medicine Racial, Ethnic and Cultural Factors in Health Track for three consecutive years. I am serving as a 13-year member of the St. Jude Children's Research Hospital's Connect to Protect Memphis HIV/AIDS Coalition, a local advocacy organization, and beginning in 2015 a partner of Headliners Memphis LGBT grassroots advisory board, and recently elected board member in 2022. I am an active member of The University of Memphis' Engaged Scholarship Committee. I chaired the School of Public Health Faculty Affairs & Development, serve on the MPH admissions, and serve on the Social and Behavioral Science curriculum and doctoral admissions committees. I am a standing member of the NIH Eunice Kennedy Shriver National Institute of Child Health & Human Development (NICHD) Health, Behavior, and Context Subcommittee Review Panel.
