

Graduate Certificate in Health Analytics

ABOUT THE PROGRAM

The graduate certificate prepares students to recognize and evaluate public health data and perform data analyses using appropriate biostatistical methods.

WHAT YOU WILL LEARN

Students will learn enhanced concepts of epidemiological and biostatistical methods and programming tools to analyze public health data.

CAREER OPPORTUNITIES

This program is designed to enrich opportunities for those already engaged in health related-work in a community, research institute or clinical setting. The courses can be applied to a master's degree program in public health at the University of Memphis School of Public Health.

CURRICULUM

CORE COURSES - 15 CREDIT HOURS
