# Your Summer with the School of Public Health

## Summer Schedule

Each day, students will be involved in multiple learning activities for 4-5 hours, exploring crucial topics such as:

- June 23: Why Public Health is Important in the 21st Century
- June 24: AI and Public Health
- June 25: Storytelling in Public Health
- June 26: Global Public Health Opportunities
- June 27: Health Systems Strengthening

## Join the **EMPOWER Summer Initiative: Elevating Memphis Public Health Opportunities With Engaged Researchers for High School Students**

From **June 23 to 27**, immerse yourself in an exciting, hands-on educational experience designed to elevate your understanding and engagement in public health.

Don't miss this chance to connect with like-minded peers and engaged researchers, all while making a positive impact on your community.

## What to Expect

- Interactive Experiential Learning: Work on group research projects and engage in hands-on activities.
- Seminars: Dive deep into public health topics with distinguished international experts facilitating seminar sessions.
- Professional Development: Enhance your leadership skills and receive academic advising.
