THE UNIVERSITY OF MEMPHIS | School of Public Health

Master of Healthcare Administration

INTEGRATED AND APPLIED KNOWLEDGE

The MHA program blends academic rigor with hands-on learning. Students apply concepts through case studies, simulations, and real-world projects with healthcare organizations. This integrated approach builds the confidence and competence needed to lead in today's complex health systems.

EXPLORE YOUR INTERESTS

Shape your graduate experience around your goals. With elective options, specialized coursework, and opportunities for research or community engagement, students can deepen expertise in areas such as healthcare finance, operations, policy, analytics, or population health.

GAIN CAREER-READY SKILLS

Graduate prepared to lead. The curriculum develops essential competencies in financial management, quality improvement, data analytics, strategic planning, communication, and organizational leadership. Internships and applied learning ensure you're ready to make an immediate impact.

MAKE CONNECTIONS

Build a powerful professional network. Students benefit from strong partnerships with regional health systems, faculty mentorship, alumni engagement, and involvement in organizations like ACHE, NAHSE, and AUPHA. These connections open doors to internships, fellowships, and long-term career opportunities.

EMPLOYMENT OUTCOMES

MHA graduates achieve exceptional placement rates across hospitals, health systems, consulting firms, insurance organizations, and public health agencies. Many secure competitive administrative fellowships and residences. The program's reputation and leadership focus position graduates for sustained career advancement.

WHAT YOU WILL LEARN

Students learn how to manage healthcare staff, navigate healthcare policies and laws, financial management, strategic planning, and quality improvement and integrate data-driven decision-making to enhance organizational performance.
