

MPH Generalist Track

ABOUT THE PROGRAM

The MPH Generalist program prepares students to develop evidence-based strategies to enhance healthcare outputs and promote healthier communities.

The program may be completed full-time (in four semesters) or part-time (completion varies) either on-campus or online. The program may be completed in 12-15 months (accelerated program) for qualified students who can handle an intensive course load.

Upon graduation, students are eligible to take the Certification in Public Health (CPH) exam.

IS THIS DEGREE FOR YOU?

- The program is suited for students with diverse academic backgrounds and apply their skills in public health policy, program management, and community health
- For public health professionals to gain a comprehensive understanding of public health principles and practices
- Healthcare workers who want to understand the broader context of health and disease

ENHANCE YOUR EXPERIENCE AND SKILLS

Students can enhance their skills through graduate certificates in one of the following areas, or create their plan in consultation with an academic advisor:

- Health Analytics
- Population Health Informatics
- Health Systems Leadership
- Population Health

WHERE OUR GRADUATES ARE

Graduates of the program are employed in federal, state and local health departments and nonprofit organizations and hospitals. Graduates work as project managers, community health managers, health educators and research project coordinators.

MASTER OF PUBLIC HEALTH | GENERALIST TRACK

42 CREDIT HOURS

TO APPLY:

- Completed SOPHAS application
- Undergraduate degree with minimum GPA of 3.0
