

# Minor in Public Health

## ABOUT THE PROGRAM

The Public Health Minor is designed to provide students with an understanding of the connections between public health and every aspect of life as well as the analytic approaches to understanding these connections.

## IS THIS MINOR FOR YOU?

- Students studying biology or pre-health to understand the links between health and medicine
- Those looking to add population health, preventive care, psychology, sociology and environmental sciences to their preexisting degree plan

## POTENTIAL EMPLOYMENT ORGANIZATIONS

Places of employment may include government, non-profit organizations, educational institutions, hospitals and medical/community centers.

## TO HELP YOU SUCCEED

- One-on-one academic advisor
- Dedicated faculty mentor with diverse public health expertise
- Practical fieldwork experience to prepare you for your career
- Opportunities for professional development and networking

## PUBLIC HEALTH MINOR

**18 CREDIT HOURS**

## TO DECLARE

- General Education required courses and a GPA of 2.0 or above.
- There are no prerequisites to declare a minor in Public Health and most students find that their previous courses transfer without loss of credit.

## WHAT YOU WILL LEARN

Students will be introduced to key aspects of public and population health and develop skills in health communication, literary and data analytics.
