

THE UNIVERSITY OF MEMPHIS®

School of Public Health

The University of Memphis School of Public Health is excited to invite high school students to participate in Public Health IDEAS Club. The RE-AIM Public Health IDEAS Club is a high school initiative aimed at engaging students in public health issues, fostering their development as future health leaders and community advocates.

BUILDING A GLOBAL HEALTH NETWORK

Starting in Your High School

Our mission is to empower high school students with practical skills and knowledge in public health through *innovative workshops, community-based research and public health campaigns*. Learn how to support your community's health and wellbeing with student-led projects and initiatives.

For more information, visit [Public Health IDEAS Clubs](https://sphclubs@memphis.edu) or scan the QR code here. If you have any questions, please reach out to sphclubs@memphis.edu.

ADVANCING GOOD HEALTH AND WELL-BEING THROUGH PUBLIC HEALTH IN ACTION

FROM THE DEAN

"The initiative is built upon the relevance of transforming ideas into implementation for solving pressing public health challenges of the 21st century through Research, Skills, Innovation and Entrepreneurship."

Ashish Joshi, PhD, MBBS, MPH
