2. In the key block of SFASRPO, enter the student's U number and enter the Term. Click Go.

Note: A permit can be issued to a student even though the student is not active for the term in the key block. The student must be admitted to the university before he or she can register for a class and be issued a permit.

3. In the **Student Permits and Overrides** section, use the Lookup button next to the **Permit** field to view permit options:

4. Double click on the appropriate permit to select it.

If CRN is Known:

5. Tab to **CRN**. If the CRN is known, enter it. This will automatically fill in the other fields. Verify that the correct course and section are displayed. If CRN is not known, go to “IF CRN is Not Known” (below).
6. Click Save. Check the top right of the screen to see the “**Saved Successfully**” message.
7. To enter a permit for another student, click Start Over and enter a new ID.

If CRN is Not Known (or to allow a student to register for any open section of a course):

8. If the CRN is not known, tab to **Subject**. Use the Lookup button and choose **Search for Sections (SFQSECM)**.
9. Enter a query and click Go.

The screenshot shows the 'REGISTRATION SECTION QUERY' interface. The search criteria are: CRN (empty), Part of Term (empty), Subject (ENGL), Course (1010), and Section (empty). Below the search form is a table with columns: CRN, Part of Term, Subject, Course, Section, Available Seats, Waitlist, Mon, Tue, Wed, Thu, Fri, Sat, Sun, Begin Time, End Time, Time Conflict, and Link. The table is currently empty. The interface also includes a 'Clear All' button and a 'Go' button.

10. Entering a subject and course will bring up all sections for the course. Information such as Available Seats for each for each section is displayed.

12. Click Save. Check the top right of the screen to see the “**Saved Successfully**” message.
13. To enter a permit for another student, click Start Over and enter a new ID.

Note: If you omit Section number on a DEPT APPR permit, you have given the student permission to register for any section of this course as long as the class is not full.

If you omit **Section** number on a CLOSED permit, you have given the student permission to register for any section of this course even if the class is full, as long as the student satisfies prerequisite, corequisite, etc.

If you enter a **Section** number and want to override the capacity of a class as well as prerequisite, corequisite, etc., as in the Departmental Approval permit, then you will need to issue 2 permits, CLOSED and DEPT APPR. Please note that these 2 permits together will override everything, including capacity for a class no matter if seats are available or not. There might not be enough chairs in the room.

Remove Permits

1. Go to SFARSPO. Enter the student's U number in the ID field and enter the Term. Click **Go**.
2. In the **Student Permits and Overrides** section, click in the Permit field of the permit to be removed.
3. From the section header, select Delete.
4. Click Save. Check the top right of the screen to see the “**Saved Successfully**” message.

Note: If the student has already registered, this permit removal will not affect the registration until the student drops the course. The student would then not be able to re-register.

General Helpful Hints:

- Verify that the time of the section does not conflict with a course in which the student is already enrolled. A permit (TIME excepted) will not override a time conflict.
- Check seats available prior to issuing permits. The number of seats available is reflected based on actual registrations. It does not take into account permits issued that have not been activated by registration.
