Bylaws

ARTICLE I - NAME

The name of this organization shall be the University of Memphis Research Council (UMRC)

ARTICLE II - OBJECT

The UMRC is the primary liaison between faculty researchers and University of Memphis leadership on all issues related to our research environment, research policies, research compliance and strategic research directions. The UMRC serves in a consultative role and reviews research and compliance policies, contemplates growth opportunities, identifies areas of excellence, catalyzes cross-disciplinary and trans-institutional collaborations, and unifies divergent goals and objectives of local research and exploration thrusts with institution missions and priorities. In the spirit of faculty governance, it also serves as an important feedback mechanism for the University’s research efforts. Members of the Council also help to promote research discourse at the local level and serve as advocates for research efforts in their respective units.
