

University of Memphis Housing and Residence Life
Guide to Community Living
2025-2026

1. Introduction

The residential community at University of Memphis is designed to provide a quality on-campus residential community focusing on academic success, campus engagement, and personal growth. Students have the right to expect an environment that is conducive to study, sleep, and socialization. Many diverse individuals comprise the residential community at the UofM and to foster this shared environment, it is necessary for the University to have policies and procedures that serve as a community standard for all residents.

These policies apply to any residence hall owned, operated or controlled by the University of Memphis. Residents agree to abide by these terms as well as the Student Code of Rights and Responsibilities, which are incorporated into and considered a part of your housing contract. Residents are also responsible for ensuring that their guests and family members are knowledgeable of these terms as residents may be held accountable for the behavior of their family members or guests. Residents are also expected to comply with the directions of staff members, who in the course of their duties request that a student comply with regulations or instructions.

2. Your Responsibility

- (1) Residents are responsible for reading and understanding the terms and conditions of the contract as well as these policies prior to completing their application.
- (2) Applications must be submitted to Housing and Residence Life, along with the non-refundable application fee.
- (3) Room selection will be made when a resident applies for housing. After its internal review and approval process, the Department of Housing and Residence Life will notify the student of the confirmed assignment.

The Executive Director of Residential and Dining Programs can also delegate this task to other associates in Housing and Residence Life if they are unable to perform the task themselves. Receipt of the housing application does not guarantee a housing assignment.

(7) Immunizations

All students under the age of twenty-two (22) who reside in University residence halls must provide proof of adequate immunization against meningococcal disease as required by state law unless they have a valid exemption. Students who fail to provide proof of adequate immunization will not be allowed to reside in University student residential halls unless they have a valid exemption.
