

Southeast Transportation Workforce Center

memphis.edu/setwc

The University of Memphis (UofM) is the home of the Southeast Transportation Workforce Center (SETWC) and is part of the National Network for Transportation Workforce. The national network includes 5 regional centers hosted at the UofM, the University of Vermont, University of Wisconsin-Madison, Montana State University and California State University-Long Beach. The network structure allows sharing of best practices and leveraging of resources across the nation to improve transportation workforce outcomes.

VISION AND MISSION

The *vision* of SETWC is that the work of the center in concert with regional partners will lead to a right-sized, career-ready transportation workforce being produced in the southeast region.

The *mission* of SETWC is to coordinate existing regionally based programs, plans, and processes and to strategically create partnerships to ensure that students and persons seeking workforce reentry, career transition, or career advancement are aware of opportunities, required education, skills, training, and ladders to success within the regional transportation workforce.

BROAD REGIONAL SCOPE, UNIQUE NATIONAL EXPERTISE

SETWC serves a 12-state region in the southeastern United States as well as Puerto Rico. While the center addresses the broad goals of transportation workforce development throughout the region, it also focuses on the following areas of national expertise:

- Women in transportation
- Freight (including rail, truck, warehousing, and logistics)
- Military/veteran transition to transportation workforce

THE GOALS OF SETWC INCLUDE:

- Identify regional transportation job needs and priorities
- Catalog existing training programs from K-12 through professional development
- Identify education and training gaps
- Develop partnerships and initiatives to bridge identified gaps
- Fully engage regional stakeholders to showcase successful programs and practices and to increase impact in the southeast region
