

SETWC Transportation Academy for High School Students June 11-15 2018

Herff College of Engineering, University of Memphis

What is the SETWC Transportation Academy for High School Students?

This program is designed to **showcase the diversity of career opportunities in transportation**, with particular emphasis on the **robust transportation and logistics industry in Memphis**. The Academy is an intensive summer institute that provides participants with an opportunity to conduct 'mini' research projects and learn in-depth transportation industry content. The goal of the Academy is to **increase the number of students intentionally choosing transportation as their career pathway**.

Transportation Academy FAQs:

- **15 high school students will be selected** for the 2018 Academy (rising sophomores, juniors, or seniors)
- **One-week intensive summer institute held from 9 AM - 4 PM, June 11-15th** at the **Herff College of Engineering at the University of Memphis**
- The week-long institute includes field trips in the Memphis area that highlight "industry in action"
- Content includes state-of-practice discussions and learning sessions, hands-on activities, and visits from industry professionals to feature a variety of career pathways, modes, and disciplines
- Small-group mentoring with undergraduate and graduate students pursuing transportation careers
- Participants will be eligible to apply to serve as paid mentors for the Transportation Academy Frosh Camp being held in July 2018.
