#### c. Questions and Concerns Open Discussion

##### i. Megan Cullen attended the Q&A meeting with Dr. Rudd with the Faculty Senate.

1. Talked about pausing the clock on tenure.

2. Eliminating part-time employees.

##### ii. COVID safety/PPE Preparedness:

1. Alison Brown – She has never been given any masks or protective/cleaning items. Physical Plant has been given at least 2 masks a week unless they are providing their own.

2. Jessica Abernathy – She communicated with Nick Pappas, Executive Director Procurement and Contract Services, about departmental needs for PPE's. They will be sending out a notification shortly to individual departments asking about quantity and individual needs.

3. Frankie Perry received a kit with the masks and the expired hand sanitizer.

##### iii. Someone asked about the timeline for staff to start returning to campus. It is a fluid situation, but Dr. Weddle-West's office says that they have suggested a staggered approach for divisions.

##### iv. The working groups have not requested anyone from Staff Senate to be in those meetings.

##### v. Cody Clinton brought up that he heard that the Physical Plant might have a furlough situation. No one else has heard of this.

##### vi. Meghan Cullen will ask Dr. Rudd if he can join us for a Q & A meeting.

##### vii. Cody Clinton suggested that we use the funding for the Staff Senate Appreciation luncheon to purchase masks and/or fabric for masks. Meghan will contact a few individuals to see if they can help with this venture. No one disagreed with the reallocation of funds for masks.

### 4. Adjourn

Meghan Cullen motioned to adjourn the meeting and Jessica Abernathy seconded the motion.
