

HIV has made me a better person.
 I took personal responsibility to transform my negative thoughts into a more positive, optimistic outlook on life. I have found that I get more happiness out of life being positive than I did being negative. Now I focus on what is most important to me and what I am most proud of; my children and I am proud of me too!

Eboni's Sweet Creations

Truthfully, I hope to buy back my grandmother's house so that my two amazing children can grow up in the place that holds so many family memories.
