

*My greatest accomplishment is
that I'm here today clean and
sober. Now I put God in my
equation and I just have faith.*

*When I first was diagnosed with HIV, I
was also a drug addict. I was a junkie.
And I didn't have any dreams. I had a
thought of suicide. I wanted to go out and
smoke as much as I can and do as much
damage as I can. But today, my addiction
is under control. I'm clean. Today I'm at
peace with my disease. I have a dream of
having better things one day. Back then
when I first was diagnosed, all of that
was cut off, but now I can dream more.*

*I'm living long, I'm healthier than
some of them that's out there now.
You can eat behind me. You can sit
behind me. I have dreams now. I can
dream now cause I'm living long. And
I'm undetectable. I don't have AIDS.
My journey from homelessness to
safety has brought me to Aloysius
New Beginnings Supportive Housing.*
