Abstract Template for Cayuse SP

You may paste the abstract from a proposal (based on a required format), or develop a draft abstract for OSP review. From an OSP perspective, the abstract should contain a brief synopsis of the major sections of the proposal, such as: Need, Objectives, Outcomes, Target Population, Scope of Services, or Project Methods.

1. **Need:** What is the purpose of your project?
2. **Target Population:** Whom will you serve?
3. **Project Overview:** What will you do, and how? What are your project's goals and objectives?
4. **Outcomes:** What do you expect to achieve? How will you measure success?
