

## Inside TigerLIFE

VOL. 3, ISSUE 1

October 2018

### TigerLIFE Fall 2018 Semester

The new semester is well underway and TigerLIFE students are busy on campus and in the community:

- Community Exploration classes began at a fast pace....they have visited the Bass Pro Shop, Dreamer's Coffee and Kroger's, as well as Aramark, Bookstore/Starbucks and the University Holiday Inn on campus where they have learned about jobs in these different industries. And they have more explorations planned!
- Campus classrooms have been filled with learning activities, guest speakers and visits around campus to the art museum, health fair and homecoming events.
- Health Advocacy students are learning new recipes and cooking at Church Health and then experiencing different forms of exercise with the YMCA ...all at the Crosstown Concourse.
- Internships and Externships are in progress with returning sites that include Marshall's, Botanic Garden, Crosstown Concourse, Ronald McDonald House, Aramark, Physical Plant and Highlands. There are also new sites that include Southern Reins, Hair Illusions, and Tiger Garden. We look forward to expanding these opportunities and experiences for our students.
