Purpose
This training material highlights how to install and use Papercut Mobility Printing on Mac devices.

Audience
This training material is designed for university faculty, staff, and students.

Device Requirements
Mobility Print supports mac OS Yosemite+.
Connect to the UM Wi-Fi Network

For instructions on how to connect to the um Wi-Fi network, please see our umWireless documentation.

Note: It is recommended to connect to um, as these features are not available on um-guest.
Connect to a Printer

1. If this is your first time using Mobility Print, you will need to adjust your System Preferences. In the Apple menu, select System Preferences.

   ![System Preferences Menu]

   ![Printers and Scanners]

2. Select Printers and Scanners.
3. Click the plus (+) under the printer list to add an additional printer.
4. Select a printer.

A. Select the printer you wish to add from the list.

B. Make sure **Use** is set to Secure AirPrint. If not, disconnect from the network, reconnect, and try again. If you still cannot see Secure AirPrint, contact [PaperCut Support](https://www.papercut.com).

C. Click **Add**.

*Note: If you want to use more than one printer on campus, repeat these steps for each printer.*
Print your Documents

1. To print, open the content you want to print.
   A. For a website, select File then Print.
   B. For a document, select File then Print or command (⌘) P.
   
   *Note: The last printer you added is your default printer. If you do not wish to use that printer you will need to select the correct one.*

2. Select your desired print settings.
3. Click Print.
4. Finally, authenticate using your UofM credentials and click OK. 
   Note: If you would like your system to remember your credentials click the check box beside Remember this password in my keychain.

![_authentication_screen]

Things to Remember:

If you enter the wrong authentication details, MacBook devices do not show any warning message; your job will just not print. If your job doesn’t print, check the Print Queue dialog. If the print job is there and has the message Held for authentication, click the retry icon and re-enter your login details.

If you are using account selection then additional configuration is required. Contact your system administrator for more information.
Locating Help Resources

The Center for Teaching and Learning offers support to faculty, staff, and students. Upon completing the training covered in this course; faculty, staff and students are able to receive additional training help and resources. Such help can be located as follows:

Service Desk Request

Submitting a Ticket

- Login URL:
  - Here is a link to our service desk ticketing system
  - After logging in, choose the link Request Help or Services.
  - Choose Request Help or Services.

Call the ITS Service Desk (901.678.8888) any day of the week! (Excluding Some Holidays)

- The ITS Service Desk is available from 8:00 a.m. - 11:59 p.m., seven days a week (excluding some holidays). You can contact the Service Desk for assistance with technical login problems or issues. Incoming calls after hours will be handled by voicemail services. If you require assistance after 12:00 a.m., please leave a message or submit a service request.

- Messages will be checked regularly and receive priority response the following business day. You may also email The Center for Teaching and Learning, umtech@memphis.edu (using this email will automatically generate a help desk ticket).
