Apple (iPad, iPhone, etc....)

1. On your device, delete your current University Exchange email account. To delete:
   • Tap Settings > Mail, Contacts, Calendars
   • Select your Exchange account
   • Press the red Delete Account button

2. To create your Exchange account
   • Tap Settings > Mail, Contacts, Calendars > Add Account > Microsoft Exchange

3. On the next screen, enter the information below and tap Next:
   • Email: username@memphis.edu (username is your full email address)
   • Username: username@memphis.edu
   • Password: your University of Memphis password
   *All other fields should be left empty/at their default

4. If the Server field does populate, tap Next and proceed to step 5.

   If the Server field does not populate, enter outlook.office365.com in the Server field.

   If your device still does not populate the Server information, please go to the troubleshooting section for additional information.

   Notes: After entering the Server information, check to be sure all other fields have remained as entered in step 3. If a field has changed, be sure to re-enter it as stated in step 3.

   Tap Next

5. Choose which type of data you would like to synchronized: Mail, Contacts, and Calendars, etc.

   Tap Save to finish setting up your Exchange mail

Note: You may also install the Outlook App from the Apple Store if these steps do not work using default mail program.
Android

1. On the device, delete your current University email account.
2. Navigate to the screen to recreate your account (this should be completely new).
3. Due to the wide variety of Droid devices and operating systems, it is difficult to account for all situations. Using the following information below for your device and its fields as they are displayed (not all fields will be displayed on all devices).
4. For additional information, contact your mobile carrier:
   - **Username**: username@memphis.edu
   - **Domain**: leave blank
   - **Email address**: username@memphis.edu
   - **Password**: your University of Memphis password
   - **Server**: outlook.office365.com

Android Troubleshooting

- If these instructions do not work, you will want to check your Android devices operating system. Because we are running the latest version of Exchange in the “cloud”, it is recommended your device have the latest Android Operating System (OS).
- You can check this within your device by going to **Settings > About Phone**. The information should be located within this screen. If you have questions about your phone’s OS or how to update your OS, contact your service provider.
- Install the Outlook App from the Google play store and set up using exchange.
Troubleshooting for Mobile Devices

- Some smartphone companies have pushed updates limiting phone capabilities with Microsoft email services (our email provider).

- Outlook.com provides additional information for all devices within its help center. Be sure to select links relating to Exchange Active Sync if available.

If you have now been able to get connected, great!

If you still couldn’t get connected, please be sure to have written down any error message and proceed to the next section.
How can I get further assistance?

You will need to have any error messages you have received while trying to login. Then contact the University Service Desk in one of two ways via service request of by calling 678-8888.

To Enter a Service Ticket

1. In an internet browser window, go to umHelpdesk Login

2. Login with your Username (UUID) and Password, click Login.

3. Click Email and Collaboration.
4. Click Mail Client Configuration and Smartphone Setup.

5. Click Mail Client Configuration and Smartphone Setup.

6. Fill out the form and be sure to include any error messages. Click Submit when finished.
Locating Help Resources
