These instructions are for Macintosh computers only.

*Note: When installing Office, you will need Administrator rights to the computer.*

### Installing Office

**Method 1: Installing via Self Service**  
*(For University Owned/Issued Computers/Laptops)*

1. Locate the Self-Service application in your Applications folder. Double click on the **Self Service** icon to start installation process.

*Note: if Self-Service is not installed on your system you will need to place a service request to have your LSP install it for you.*

2. The install panel will appear. Locate the Microsoft Office 2016 installer This should appear on the home page of Self Service. The installer is also located under the category of Office. Click **Install** to continue.

The installer is also located under the category of Office if it is not found on the home page of UofM Self Service installer.
3. Click **Install** on the Microsoft applications you wish to install. Continue through the installation wizard, clicking **Continue** when asked.

4. To continue the installation, you will need to enter your name and password (remember only individuals with Admin rights will be able to install the software). Enter information, as required. The installation will now begin.

5. You have now successfully installed Office, click **Done**.
Method 2: Installing via Office 365 Website  
(For Personally Owned or University Owned/Issued Computers or Laptops)  
You may also use this method to install Office 365 onto your personal devices.
