

Connecting on a PC - Windows 10

1. From the (A) Network settings, (B) select **um** from the list of available wireless networks.

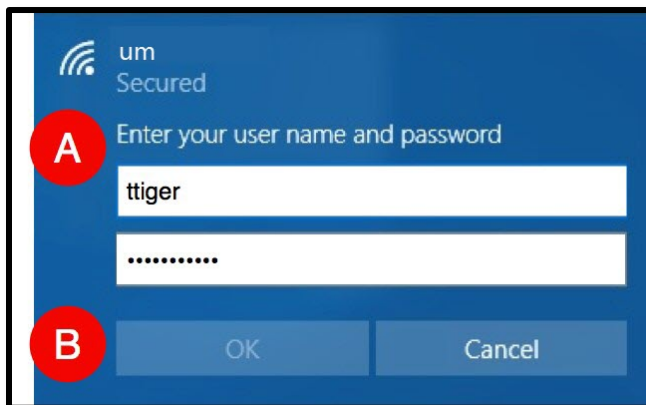

2. Click **Connect**.

3. You will be prompted to (A) enter your username (first part of your email address) and password. In this example, Tom Tiger's user name is used (ttiger).

Note: This is NOT the administrative password for your computer. Your Username will be the first part of your UofM email address and Password associated with it.

4. (B) Click OK.

5. Next, you will receive a Windows Security Alert - **Continue connecting?** Click **Connect**.

6. You are now connected to the um wireless network.
-

Trouble connecting?

If you have recently changed your password and are having trouble connecting, you may need to forget the network and re-associate your device with the campus network.

1. Click on the Windows Start button and select **Settings**.
 2. Select **Network & Internet**.
 3. Under Wireless Network Connection, click **Manage Wi-Fi settings**.
 4. Under Manage known networks, select the network you want to forget and click **Forget**.
 5. You have removed the network. To re-associate, follow the steps above in **Connecting on a PC - Windows 10**.
