## **Purpose**

This training material highlights how to access the **um** wireless network.

## **Audience**

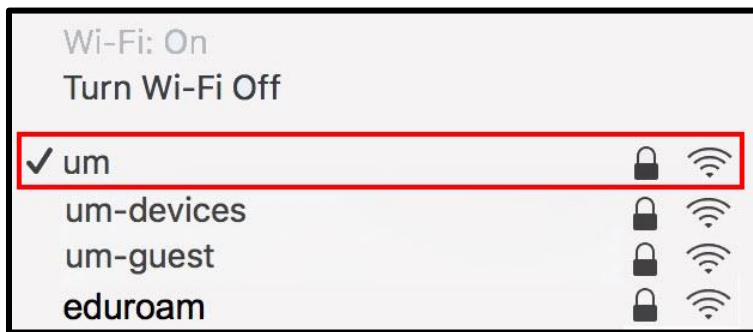

University of Memphis faculty, staff, or students that will be connecting to the on campus **um** wireless network.

# um Wireless

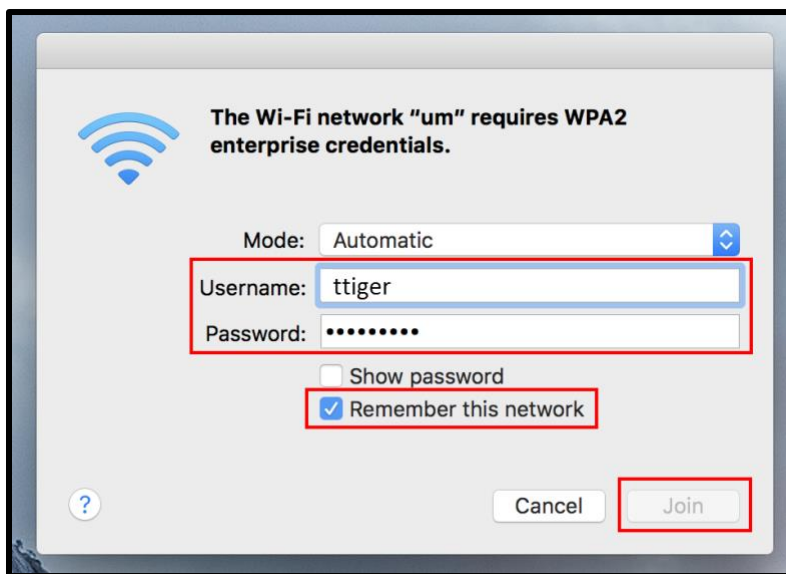

## Connecting on a Mac

---

1. Select **um** wireless from the wireless network menu in the top-right corner of the screen.

2. Check the **Remember this network** box and sign in with your Username UUID (first part of your email address) and password. Click **Join**.

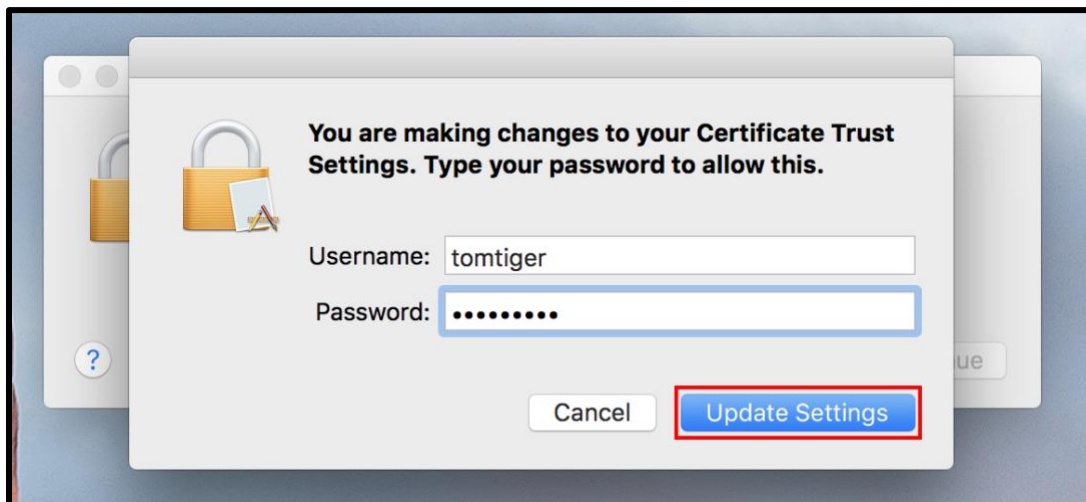

**Note:** This is NOT the administrative password for your computer. Your **Username** will be the first part of your UofM email address and **Password** associated with it. Uuid does not include preferred email address.

3. Click **Continue**.

4. Sign in with your computer's administrative password and click **Update Settings**.

5. You are now connected to the um wireless network.

## Trouble connecting?

If you have recently changed your password and are having trouble connecting, you may need to forget the network and re-associate your device with the campus network.

1. From the wireless network menu, select **Open Network Preferences** at the bottom of the dropdown menu.
2. Click **Advanced** near the bottom right corner.
3. Select the network you want to forget and click the **minus symbol** under the Preferred Networks section.
4. A window will pop up confirming that you want to forget the network, click **Remove**.
5. Click **OK** in the bottom right corner of the window.
6. Click **Apply** in the bottom right corner of the Network Preferences window.
7. You have removed the network. To re-associate, follow the steps above in **Connecting on a Mac**.

## Connecting on an iPad or iPhone

---

1. Go to your system **Settings**.

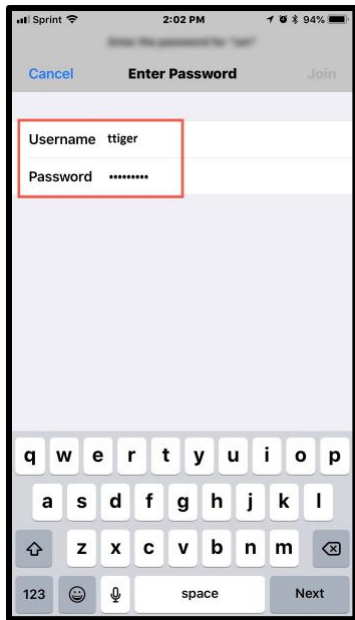

2. Select **Wi-Fi**, then choose **um** from the list of network choices.

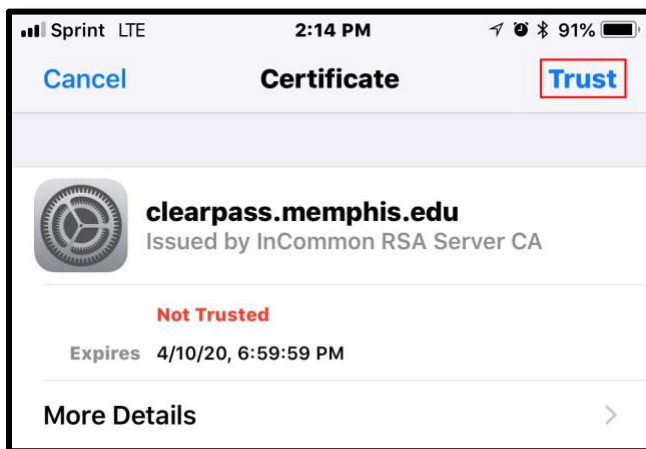

3. Enter your **Username** (UofM uuid) and **Password**. Your **Username** (uuid) will be the first part of your UofM email address, and your **Password** is the same as your password for UofM email and myMemphis. In this example, Tom Tiger's username is used (ttiger). Uuid does not include preferred email address.

*Note: This is NOT the administrative password for your mobile device.*

4. A window will pop up asking you to trust the certificate. Click **Trust**.

5. You are now connected to the um wireless network.

## Connecting on a PC - Windows

---

1. From the **A) Network settings**, **B) select um** from the list of available wireless networks.

2. Click **Connect**.

3. You will be prompted to **A)** enter your username (first part of your email address) and password. In this example, Tom Tiger's username is used (ttiger).

*Note: This is NOT the administrative password for your computer. Your **Username** will be the first part of your UofM email address and **Password** associated with it. **uid** does not include preferred email address.*

4. **B)** Click **OK**.

5. Next, you will receive a Windows Security Alert - **Continue connecting?** Click **Connect**.

6. You are now connected to the um wireless network.

## Trouble connecting?

If you have recently changed your password and are having trouble connecting, you may need to forget the network and re-associate your device with the campus network.

1. Click on the Windows Start button and select **Settings**.
2. Select **Network & Internet**.
3. Under Wireless Network Connection, click **Manage Wi-Fi settings**.
4. Under Manage known networks, select the network you want to forget and click **Forget**.
5. You have removed the network. To re-associate, follow the steps above in **Connecting on a PC - Windows**.

## Connecting on an Android or Tablet

---

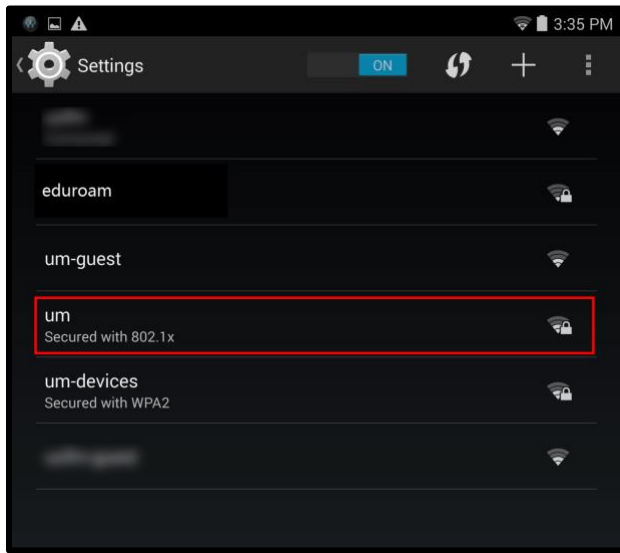

1. Go to your device **Settings**.

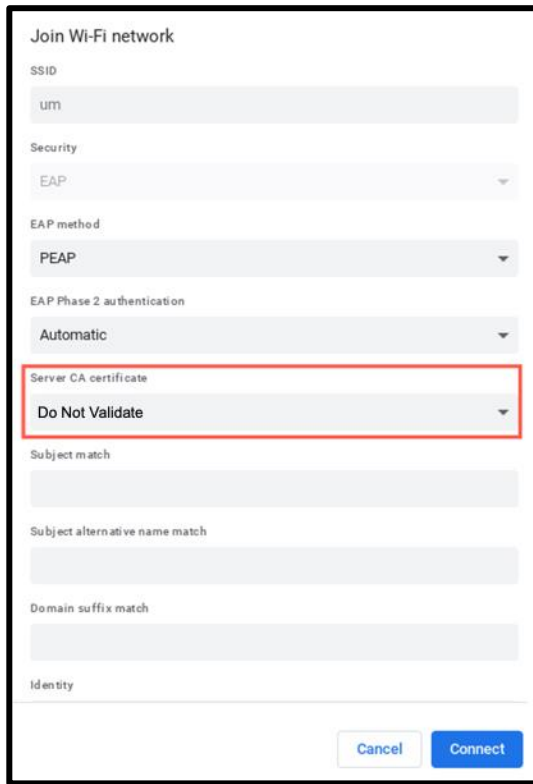

2. Make sure that your **Wi-Fi** has been activated for the device.

3. Select **um** from the wireless networks.

4. From the **Server CA certificate** menu **Do Not Validate** or **Don't Validate** (Depending on the OS) from the drop-down menu.

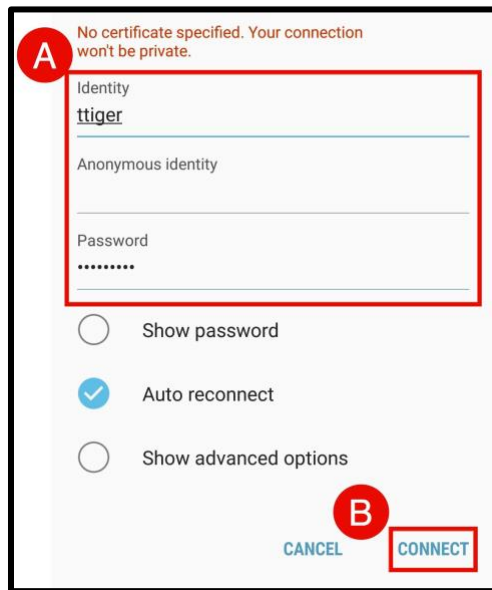

5. From the **Server CA Certificate** drop-down menu select **Do Not Validate**. Next click connect.

6. (A) Enter your UUID (first part of your email address) and password.  
*Note: This is NOT the administrative password for your device. Your Identity (username) will be your uuid, the first part of your UofM email address, and the password associated with it. In this example, Tom Tiger's username is used (ttiger). Uuid does not include preferred email address.*

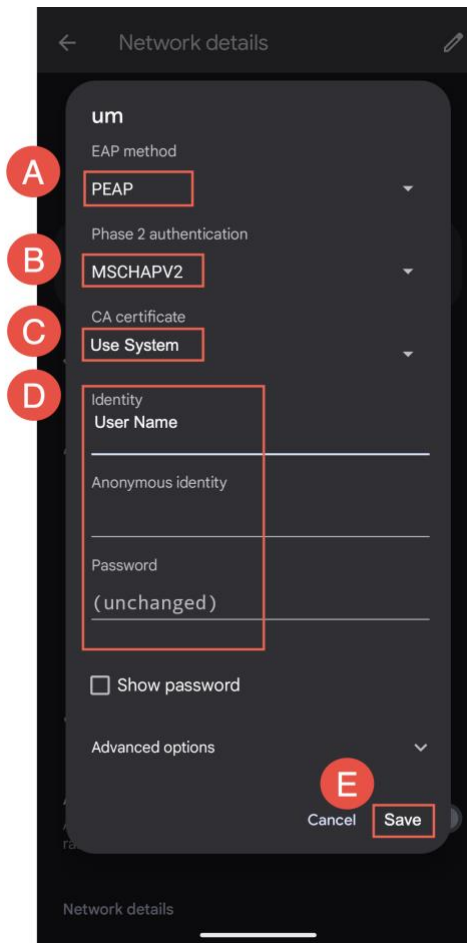

7. (B) Make sure **Auto Reconnect** is selected, then click **Connect**.

A screenshot of a connection form. At the top, there is a red warning message: "No certificate specified. Your connection won't be private." Below this, there are three input fields: "Identity" with the text "ttiger" entered, "Anonymous identity" (empty), and "Password" (masked with dots). Below the input fields are three radio button options: "Show password" (unselected), "Auto reconnect" (selected with a blue checkmark), and "Show advanced options" (unselected). At the bottom right, there are two buttons: "CANCEL" and "CONNECT". The "CONNECT" button is highlighted with a red box and labeled with a red circle containing the letter "B". A red circle containing the letter "A" is positioned near the top left of the form.

8. You are now connected to the um wireless network.

## For Android users 11 or higher

1. **A.)** Select PEAP as Eap method. **B.)** Select MSCHAPV2 under Phase 2 authentication **C.)** Select Use System from the drop-down menu. **D.)** Enter your **UUID** and **Password**. **E.)** Click **Save**. *Note: If the system asks for a domain type memphis.edu in the domain field.*

2. You are now connected to the um wireless network.
