Description of Program:
Advising guidelines for the Bachelor of Professional Studies (B.P.S.) degree with a concentration in Disability Studies and Rehabilitation Services are designed for students seeking to be academically and professionally grounded in issues faced by individuals seeking disability services. Students will also be exposed to the theme of employment – including vocational adjustment and appropriate job placement – and independent living outcomes as reaffirmed in the Rehabilitation Act Amendments of 1992. Rehabilitation depends heavily upon communication between both the consumer and professional and among various professionals; consequently, communication will be stressed, as well as an understanding of the potential influence of cultural diversity and individual lifestyle choices. Courses will also enable students to understand the methods used in disability services to solve consumer problems and utilize available resources. Finally, a well-supervised field experience component will provide students the opportunity to integrate classroom principles and develop entry-level skills in a work setting.

Students can complete one 6 credit hour class or two 3 credit hour courses. For a complete list of courses: http://www.memphis.edu/univcoll/resources/thematic_studies.php
Group B. Senior Project (3 hours)

The senior project is a student’s culminating experience or capstone designed to synthesize and integrate the content of a student’s program of study. The senior project is intended to fuse the two or more academic areas that comprise the student’s coordinated study (major) into an academically-relevant example of scholarship. Students will complete a thesis, task-based, or artistic project on a topic of their choice with approval of their senior project instructor. The senior project is completed during a student’s final semester. Consult with your advisor for more information about the senior project. **ALL** sections of UNIV 4995 are taught online. Students will be assigned to a specific section based on the topic they select.

IV. General Electives (12-18 hours)

**UNIV 3900 Experiential Learning Credit** may be granted credit for college level knowledge and understanding related to the student’s major area of study and gained from work experience, life experience, or non-college instruction. The student who wants an assessment of such learning prepares a portfolio that describes and documents the learning. Portfolios are assessed by faculty who teach in that area.

Assessment by portfolio is reserved for knowledge and competencies which do not readily fit into the credit by examination procedures described above. More detailed information about procedures may be obtained from the individual colleges. For fee information, see Fees and Charges.
