

Culture Bowl

Culture bowl teams will be asked questions covering topics such as world geography, history, culture, and customs. The questions will NOT be language-specific, although general knowledge questions about language and languages may be asked.

Two or three teams will compete at the same time, depending on the number of entries, in single-elimination matches lasting 20 minutes. The championship round will be the final event of the Fair before the awards ceremony. It is the responsibility of the language teachers at each school to select the students who will represent the school.

WHO MAY COMPETE: Foreign language students, native/heritage speakers, and speakers of cognate languages are welcome to participate in this event.

LIMITS: There is a maximum of one team per school. Teams may be composed of up to five members, although only three will compete in any one round.
